### Floating gate non-volatile memory with deep power **down** and write **lock-out**

ML Fandrich, VN Kynett, KB Robinson - US Patent 5,197,034, 1993 - Google Patents

... 1) to Program or erase operations with respect to boot block ^uce the lo^cal yhr **down** PDPWRDN are therefore allowed. The write **lock-put** protection si ^ TbK lo^cal M h PDPWRDN signal then puts mechanism remains unlocked as long as the Vpp volt- flash EpROM 10 into the ...

### [CITATION] Take control of TCPA

D Safford, J Kravitz, L Doorn - Linux Journal, 2003 - portal.acm.org

... can be used to detect software compromise, such as a rooted kernel, and to **lock down** use of ...

A **startup** with clearing of the PCRs is done at boot time, so all PCR values ... TPM\_ForceClear requires proof of physical presence, which normally is given by holding **down** the Fn key ...

### Compile-time decided instruction cache locking using worst-case execution paths

H Falk, S Plazar, H Theiling - Proceedings of the 5th IEEE/ACM ..., 2007 - portal.acm.org

... the cur- rently locked function is set to the WCET of x after **lock- down** (lines 15, 16). Using these new node weights, the new WC-path after **lockdown** of x is computed (line 17). Finally, the overall set of locked functions is returned which then serves for **startup** code generation as ...

### Method of and apparatus for **startup** of a digital computer system clock

GR Gebara - US Patent 5,294,894, 1994 - Google Patents

... As an input, the signal CLKIN is provided as a mas- At **startup**, the output of the PLL will be at the ter clock signal. ... These chips phase detector 10 provides two signals, UP\* and accomplish this by connecting a counter in a **lock** indi- 20 **DOWN\***. ...

[Cited by 11](#) - [Related articles](#) - [All 4 versions](#)

### ... adjusting the dynamic range of the VCO in a PLL at **start-up** for optimal operating ...

RW Smith, LS Tavrow, MR Santoro... - US Patent 5,955,928, 1999 - Google Patents

... be to use a counter that would be programmed to assert the pre-**lock** signal on **startup** and count a ... In this embodiment, the pre-**lock** control block will start by forcing the pre-**lock** output high when the ... After that, it will monitor the UP and **DOWN** pulses being emitted by the DPDF. ...
